

Hassan Hanif

Full Stack Developer

A hard-working individual with proficiency in JavaScript, TypeScript, ReactJS, & React Native, as well as a strong ability to communicate and work in a team, effectively seeking an entry-level position in an organization that provides opportunities for growth and development.

WORK EXPERIENCE

M.R Public School

Computer Operator

Harley Street, RWP | September 2018 - September 2019

- Developed assessments, exam papers, and other critical documents while ensuring accuracy and meeting deadlines.
- Managed the printing and delivery of documents to ensure timely and efficient distribution.

Shakir Traders

Online Marketer

7th Avenue, ISB | April 2019 - October 2019

- Optimized product advertising and managed social media content to increase brand visibility and engagement.
- Engaged with the target audience to build relationships and enhance brand awareness.

PROJECTS

Photo Gallery

- Developed with React Native and FastAPI for efficient photo decluttering and organization.
- Implemented facial recognition to automate album creation based on metadata, improving photo search efficiency.

House Marketplace

- Developed with ReactJS, Tailwind CSS & Firebase, enabling users to buy, sell, and rent houses.
- Utilized Firebase for user authentication and data storage for property listings & user profiles.

GitHub Finder

- Developed a user-friendly GitHub search interface with ReactJS and Tailwind CSS.
- Integrated GitHub API, enabling efficient searching and viewing of GitHub profiles

NFT Marketplace

- Created responsive landing page using ReactJS and Tailwind CSS, with design inspiration from a Themeforest template.
- Integrated Framer Motion library to create interactive animations that enhanced user experience.

Travel App

- Developed UI screens using React Native and NativeWind with design inspiration from a Figma template.
